

Performance Profile Information

Every publicly funded early childhood site in Louisiana receives a Performance Profile. This profile provides information on the site's classroom quality and use of best practices to help parents make smart early learning choices for their children. This includes public school pre-k classes and all Type III childcare providers.

The overall measure of classroom quality is reflected with one of five levels: Unsatisfactory, Approaching Proficient, Proficient, High Proficient and Excellent. Below you will find the profile scores for each public school pre-k program and the Type III childcare providers in the parish. Newer childcare providers listed do not have a profile rating because they have not been open long enough.

Logansport

Logansport High School-High Proficient

Mansfield

Mansfield Elementary School-High Proficient

Save the Children Head Start/Early Head Start-High Proficient

We Care of Mansfield-High Proficient

GBaby's Development Center-No Rating Yet

Stanley

Stanley High School-Excellent

Stonewall

North DeSoto Lower Elementary-High Proficient

The Little School Child Development Center-No Rating Yet

As you can see, all of the options in DeSoto parish are in the top two tiers. We are very proud of what is offered to our youngest learners!
